EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 6, line 12, change "height" to —radial width—.

In claim 9, line 13, change "totor" to —rotor—. On line 15, change "height" to —radial width—.

In claim 22, line 2, change "sued" to —used—.

2. The following changes to the drawings have been approved by the examiner: In Fig.5, add the label —PRIOR ART—. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.
3. The following is an examiner's statement of reasons for allowance: The prior art does not teach the claimed shielding structure for a brushless type rotation detector including, inter alia, characterized in that said shielding structure is a ring-shaped structure including said rotor magnetic shielding section and a securing section for mounting the structure to a surface of said rotor, said securing section is formed into a flange shape, and said rotor magnetic shielding section has the same radial width as said rotor transformer and the rotor iron core (claims 6 & 9)

or that the rotor magnetic shielding section has a radial width capable of also providing a shield between said stator transformer and the stator iron core (claim 12).

It is noted that JP 62-161573 provides a ring-shaped rotor magnetic shielding section 21 (Fig.1) with the same radial width as the rotor transformer 16 and rotor iron core 10; however, there is no "securing section...formed into a flange shape", nor does the rotor magnetic shielding section have "a radial width capable of also providing a shield between said stator transformer and the stator iron core."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

4. The drawings were received on 08 January 2009. It is noted that Fig.5 does not include the label "PRIOR ART". This has been corrected by examiner's amendment.

Information Disclosure Statement

5. The information disclosure statement (IDS) submitted on 08 January 2009 has been considered by the examiner.
